

# Measurements for Materials Systems

## Adhesion and Adhesives

### Industrial Advisory Group Meeting

Wednesday, 30 April 2003  
TWI, Granta Park,  
Great Abington, Cambridge

10:00 Arrival, Tea and Coffee

10:30 Introduction and Welcome

10:45 MMS7 Towards an Adhesives Design Toolkit (TWI)

- Minutes of previous IAG meeting
- Progress on Toolkit Modules and Tasks
- Live demonstration of Adhesives Toolkit working Modules
- Feed-back from IAG Members (*Details of the Adhesive Selector Module will be circulated 2 weeks before the IAG meeting to allow time for comments.*)
- Adhesive material properties - IAG discussion of proposed format for data in the Toolkit.

12:30 Lunch

13:30 MMS8 Interfacial Adhesion Strength (NPL)

- Progress on Tasks

14.15 MMS11 Design for Creep and Fatigue of Joined Systems (NPL)

- Progress on Tasks

14:45 Performance of Materials Research Programme (NPL)

- A briefing on the new programme announced by the DTI, due to start in April 2004, and which requires input from UK industry to formulate the direction of the programme.

15:30 Any Other Business/Close of Meeting

Tea and Coffee
